

Ekinox ™

REINVENT THE NEW

Why

can't a
single range of
distribution boards
work for all
applications?

With Ekinox³, we've pushed best to a better level. While others have designed countless variations of distribution boards, no one has really understood the needs and complexities of projects with variable power requirements.

Here's how
Ekinox³ reinvented
energy distribution

DX³

Easy, Safe Connection

Safety is prioritised with the innovative features of the DX³ products

The quality and hold of the connections are vital for the safety of distribution boards fitted with high breaking capacity MCBs. The connection areas are designed to make installation faster without compromising on the safety.

RELIABLE CONNECTIONS

Compensation for the effect of loosening to ensure excellent hold over time and consistent contact ($I_n \geq 80 A$)

RISING CLAMP TERMINALS

ensure a high quality, durable connection

1,5
modules/pole

Black handle:
circuit breakers
Grey handle: switches

Breaking capacity

16 kA ■
25 kA ■
36 kA ■
50 kA ■

RETRACTABLE INSULATING SHIELDS

With the integrated retractable insulating shields, no additional accessories are needed to isolate the connections on all breaking capacities and high ratings of the 1.5 modules/pole ($I_n \leq 63 A$) circuit breakers.
