

Product Environmental Profile

Myrius™

Four units of 6/16 A 3 Pin Combined Shuttered Socket 2 Modules - White

LEGRAND'S ENVIRONMENTAL COMMITMENTS

• Incorporate environmental management into our industrial sites

Of all Legrand sites worldwide, over 85% are ISO 14001-certified (sites belonging to the Group for more than five years).

• Offer our customers environmentally friendly solutions

Develop innovative solutions to help our customers design more energy efficient, better managed and more environmentally friendly installations.

• Involve the environment in product design and provide informations in compliance with ISO 14025

Reduce the environmental impact of products over their whole life cycle.

Provide our customers with all relevant information (composition, consumption, end of life, etc.).

REFERENCE PRODUCT

Function	Connect/Disconnect during 20 years the plug of a load consuming 6/16 A under a voltage of 240 V while protecting the user from direct contact with live parts.	
Reference Product	 	
	4 x Cat.No 6 730 45 6/16 A 3 Pin Combined Shuttered Socket 2 Modules - White	Cat.No 6 732 08 Cover plate with frame 8 Modules Square version - White
	Four units of 6/16 A 3 Pin Combined Shuttered Socket 2 Modules, White.	

The company reserves the right to change specifications and designs without notice. All illustrations, descriptions, dimensions and weights in the document are for guidance and cannot be held binding on the company.

PRODUCTS CONCERNED

The environmental data is representative of the following products:

Catalogue Numbers (Combined Shuttered Socket)	Catalogue Numbers (Cover plate with frame)
• 6 730 45	• 6 732 08

Product Environmental Profile

Myrius™

Four units of 6/16 A 3 Pin Combined Shuttered Socket 2 Modules - White

■ CONSTITUENT MATERIALS

This Reference Product contains no substances prohibited by the regulations applicable at the time of its introduction to the market. It respects the restrictions on use of hazardous substances as defined in the RoHS directive 2011/65/EU.

Total weight of Reference Product		427 g (all packaging included)			
Plastics as % of weight		Metals as % of weight		Other as % of weight	
PC	32.6 %	Steel	32.4 %		
PA	1.7 %	Copper alloys	9.3 %		
Other plastic	0.2 %	Other metal	6.2 %		
Packaging as % of weight					
PP (packaging)	1.4 %			Paper (packaging)	16.2 %
PE (packaging)	< 0.1 %				
Total plastics	35.9 %	Total metals	47.9 %	Total other and packaging	16.2 %

Estimated recycled material content: 28 % by mass.

■ MANUFACTURE

This Reference Product comes from sites that observe the applicable legislation for industrial sites.

■ DISTRIBUTION

Products are distributed from logistics centres located with a view to optimize transport efficiency. The Reference Product is therefore transported over an average distance of 410 km by road from our warehouse to the local point of distribution into the market in India. Packaging is compliant with applicable regulation. At their end of life, its recyclability rate is 91 % (in % of packaging weight).

■ INSTALLATION

For the installation of the product, only standard tools are needed.

■ USE

Under normal conditions of use, this product requires no servicing, no maintenance or additional products.

Product Environmental Profile

Myrius™

Four units of 6/16 A 3 Pin Combined Shuttered Socket 2 Modules - White

END OF LIFE

The product end-of-life factors are taken into account during the design phase. Dismantling and sorting of components or materials is made as easy as possible with a view to recycling or failing that, another form of reuse.

• Recyclability rate:

Calculated using the method described in technical report IEC/TR 62635, the recyclability rate of the product is estimated at 97 %. This value is based on data collected from a technological channel operating on an industrial basis. It does not pre-validate the effective use of this channel for the end of life of this product.

Separated into:

- plastic materials (excluding packaging) : 33 %
- metal materials (excluding packaging) : 48 %
- other materials (excluding packaging) : 0 %
- packaging (all types of materials) : 16 %

ENVIRONMENTAL IMPACTS

The evaluation of environmental impacts examines the stages of the Reference Product life cycle: manufacturing, distribution, installation, use and end-of-life. It is representative of products marketed and used in India.

For each phase, the following modelling elements were taken in account:

Manufacture	Materials and components of the product, all transport for the manufacturing, the packaging and the waste generated by the manufacturing.
Distribution	Transport between the last Group distribution centre and an average delivery point in the sales area.
Installation	The end of life of the packaging.
Use	• Product category: «PSR 0005-ed2-2016 03 29, § 3.8 Sockets». • Use scenario: non-continuous operation for 20 years at 50 % of rated load, during 50 % of the time. This modelling duration does not constitute a minimum durability requirement. • Energy model: Electricity Mix; India - 2009.
End of life	The default end of life scenario maximizing the impacts.
Software and database used	EIME & database CODDE-2016-11
