

Product Environmental Profile

Lyncus™ 1 Way Switch - White - 6 AX -1 Module

LEGRAND'S ENVIRONMENTAL COMMITMENTS

- Incorporate environmental management into our industrial sites**

Of all Legrand sites worldwide, over 85% are ISO 14001-certified (sites belonging to the Group for more than five years).

- Offer our customers environmentally friendly solutions**

Develop innovative solutions to help our customers design more energy efficient, better managed and more environmentally friendly installations.

- Involve the environment in product design and provide informations in compliance with ISO 14025**

Reduce the environmental impact of products over their whole life cycle.

Provide our customers with all relevant information (composition, consumption, end of life, etc.).

REFERENCE PRODUCT

Function	Establish, support and interrupt for 20 years rated currents in normal conditions of circuit characterized to a 230 V low voltage with rated load not exceeding 6 A.		
Reference Product			
	Cat.No 6 772 00 Mechanism	Cat.No 6 775 02 Cover Plate with Frame 2 Modules - White	Cat.No 6 772 76 Blanking Plate 1 Module

The company reserves the right to change specifications and designs without notice. All illustrations, descriptions, dimensions and weights in the document are for guidance and cannot be held binding on the company.

PRODUCTS CONCERNED

The environmental data is representative of the following products:

Catalogue Numbers (Mechanisms)	Catalogue Numbers (Cover plate with frame)	Catalogue Numbers (Blanking plate 1M)
• 6 772 00 • 6 774 00 • 6 772 03 • 6 774 03 • 6 772 04 • 6 774 04	• 6 775 02 • 6 775 22 • 6 775 42 • 6 775 62 • 6 775 82 • 6 776 02	• 6 772 76 • 6 774 76

Product Environmental Profile

Lyncus™
1 Way Switch - White - 6 AX -1 Module

■ CONSTITUENT MATERIALS

This Reference Product contains no substances prohibited by the regulations applicable at the time of its introduction to the market. It respects the restrictions on use of hazardous substances as defined in the RoHS directive 2011/65/EU.

Total weight of Reference Product		78 g (all packaging included)			
Plastics as % of weight		Metals as % of weight		Other as % of weight	
PC	48.9 %	Steel	6.4 %		
PP	5.7 %	Copper alloys	4.3 %		
		Silver alloys	< 0.1 %		
		Other metal	< 0.1 %		
Packaging as % of weight					
PP (packaging)	8.6 %			Paper (packaging)	25.6 %
PE (packaging)	0.5 %				
Total plastics	63.7 %	Total metals	10.7 %	Total others	25.6 %

Estimated recycled material content: 24 % by mass.

■ MANUFACTURE

The Reference Product comes from sites that, in their majority, have received ISO14001 certification.

■ DISTRIBUTION

Products are distributed from logistics centres located with a view to optimize transport efficiency. The Reference Product is therefore transported over an average distance of 578 km by road from our warehouse to the local point of distribution into the market in India. Packaging is compliant with applicable regulation. At their end of life, its recyclability rate is 73 % (in % of packaging weight).

■ INSTALLATION

For the installation of the product, only standard tools are needed.

■ USE

Under normal conditions of use, this product requires no servicing, no maintenance or additional products.

Product Environmental Profile

Lyncus™
1 Way Switch - White - 6 AX -1 Module

END OF LIFE

The product end-of-life factors are taken into account during the design phase. Dismantling and sorting of components or materials is made as easy as possible with a view to recycling or failing that, another form of reuse.

• Recyclability rate:

Calculated using the method described in technical report IEC/TR 62635, the recyclability rate of the product is estimated at 88 %. This value is based on data collected from a technological channel operating on an industrial basis. It does not pre-validate the effective use of this channel for the end of life of this product.

Separated into:

- plastic materials (excluding packaging) : 52 %
- metal materials (excluding packaging) : 11 %
- other materials (excluding packaging) : 0 %
- packaging (all types of materials) : 25 %

ENVIRONMENTAL IMPACTS

The evaluation of environmental impacts examines the stages of the Reference Product life cycle: manufacturing, distribution, installation, use and end-of-life. It is representative from products marketed and used in India.

For each phase, the following modelling elements were taken in account:

Manufacture	Materials and components of the product, all transport for the manufacturing, the packaging and the waste generated by the manufacturing.
Distribution	Transport between the last Group distribution centre and an average delivery point in the sales area.
Installation	The end of life of the packaging.
Use	• Product category: passive product. PSR 0005-ed2-2016 03 29, § 3.5 Switches. • Use scenario: non-continuous operation for 20 years at 50 % of rated load, during 30 % of the time. This modelling duration does not constitute a minimum durability requirement. • Energy model: Electricity Mix; India - 2009.
End of life	The default end of life scenario maximizing the impacts.
Software and database used	EIME & database CODDE-2018-11

Air pollution	3.85E+02	m³	4.32E+01	11 %	9.20E-02	< 1 %	2.55E-01	< 1 %	3.40E+02	88 %	6.89E-01	< 1 %

The values of the 27 impacts defined in the PCR-ed3-EN-2015 04 02 are available in the digital database of pep-ecopassport.org website.

For products covered by the PEP other than the Reference product, the environmental impacts of each phase of the lifecycle are assimilated to the impacts of the Reference Product.
