ARTEOR™

SIMPLY FITS YOUR NEEDS

ONE UNIQUE
DESIGN,
VIRTUALLY
ENDLESS
VERSATILITY

Its versatility makes Arteor™ the ideal choice for any type of project, wherever in the world, whatever the installation level.

From a stand-alone solution to a fully networked home system, the complete spectrum of functions for every desired application can be covered within a single design, making sure you don't have to compromise either on technical or on aesthetic criteria.

ARTEOR™ DESIGN FOR A GLOBAL LIFESTYLE

TIMELESS DESIGN WITH A HIGH-TECH TOUCH

Minimalist and sober, Arteor's carefully crafted design is inspired by modern technological devices such as flat screens. It creates the impression that the product is floating on the wall.

AN EVEN WIDER CHOICE

Design options include the choice of ergonomics for all control functions. Whether stand-alone or home automation – every control function is now available in both round and square versions.

Stand-alone

Radio

BUS

ARTEOR™ DESIGN OPTIONS FOR CONTROL FUNCTIONS

Arteor™ offers a wide choice of ergonomics and finishes to satisfy the most demanding customers. All stand-alone control functions are available in two shapes of rockers – round or square – and in two colours – white or magnesium.

ARTEOR™

ENERGY EFFICIENCY: WHAT'S NEW AT A GLANCE

Universal dimmer

THE NEW UNIVERSAL DIMMER

A SINGLE DIMMER FOR ALL MODERN TYPES OF LOADS

The new universal dimmer is suitable for all modern types of loads, including dimmable CFLs and LEDs. It offers the possibility of using preset lighting levels (33%, 66%) and has a level memory function.

Compact
fluorescent lamps

Halogen
lamps

LED
lamps

2 WIRES ONLY

The universal dimmer can be installed without a neutral wire. It's the perfect choice for new buildings as well as renovation, i.e. for easy replacement of a traditional switch.

Application
example
see p. 30

EASY INSTALLATION FULLY MODULAR

Like the entire Arteor™ range the new universal dimmer is fully modular. This ensures easy and quick installation.

FACILITATING TARGETED USE OF LIGHT

AUTOMATIC SWITCH

The automatic switch contributes to putting a stop to energy waste by delivering just the right lighting when it's needed – and only as long as it's needed.

SKIRTING LIGHT WITH MOTION DETECTOR

Skirting lights with built-in motion detector not only help to cut energy bills but also provide enhanced safety.

ARTEOR™

INSTALLATION SAFETY FIRST

The innovative bi-material support frame provides IP 20 electrical safety. It combines the sturdiness of a metal frame with the insulating qualities of plastic overmoulding.

Screw caps can be closed once the support frame is installed, ensuring total insulation.

Specific to US/Italian standard support frames: flaps ensure safety when only one or two modules are installed on a 3-module support frame. Flaps avoid any contact with the wires (e.g. in case of disinstallation) and can be broken out according to individual needs.

* This support frame is for all high end plates except white plate.

Protection at every step of the installation process

Support frames and plates are each supplied with special shrink wrap protection should be removed only once site work is fully completed.

ARTEOR™

HOME AUTOMATION: WHAT'S NEW AT A GLANCE

GET IN TOUCH WITH TOMORROW

Greater possibilities, enhanced functions, easier operation - a combination of new products and numerous improvements on existing ones has taken the Arteor™ offering for home automation a step further. This way, Arteor™ makes it even easier for design engineers and electrical contractors to produce the right solutions to convince even the most demanding customers.

MyHOME_SCREEN 3.5

Enhanced user interface for intuitive navigation. Now also including the energy management feature.

LOCAL DISPLAY

Four functions inside a single device: scenario control, sound distribution, temperature control and energy management.

8 PUSH-BUTTON CONTROL

Choose from 8 individually customisable functions. Made even more user-friendly by the use of push-buttons. Possibility of customising symbols.

DISPLAY THERMOSTAT

Temperature control set individually in each room or centrally (in combination with a central unit) for the whole house. Fan coil control included.

MyHOME_SCREEN 10

New intuitive graphic user interface for central control of the whole house. Fully customisable user profiles, with navigation by rooms. Including energy management, multimedia and door entry functions.

For further
details
see p. 28

MyHOME_SCREEN 10

ENERGY CONSUMPTION DISPLAY

VISIBILITY DRIVES SAVINGS

A COMPLETE CONSUMPTION CHECK-UP

Electricity

Water

Gas

The new MyHOME_Screen 10 allows for real time display and management of electricity, gas and water consumption levels.

MONITORING ENERGY PRODUCTION

Heating/
Cooling

Hot water

Also, the consumption display allows to monitor the energy and hot water output obtained by using photovoltaic or solar panels.

MyHOME_SCREEN 10 ENERGY MANAGEMENT

By accurately indicating whether current consumption is above (red) or below (green) the previous average, the energy management function makes it easy for users to become more aware of their energy consumption and facilitates taking action to adjust their behaviour patterns. This monitoring function can be customised to suit individual needs and the conditions of each house.

Choice of the desired period to be monitored:
day/month/year

Clear display of the consumption level:
direct feedback as to whether or not the consumption exceeds the month's average

Possibility of checking the instantaneous consumption level

Possibility of checking the year's cumulative consumption

ARTEOR™

HIGHLIGHTS FOR RESIDENTIAL BUILDINGS

MyHOME_SCREEN 10

THE HUMAN TOUCH

Designed around the users' needs, the new wall mounting MyHOME_Screen 10 makes control of home automation even more intuitive. This control centre for the entire home is fully customisable and allows for easy navigation, room by room. It combines home control, energy management, video door entry, management of multimedia content (photos, audio, video) and Internet connection, all in just one device.

WEB BROWSER AND MULTIMEDIA MANAGEMENT

One single screen for managing multimedia files (photo/audio/video) and staying connected to the Internet

VIDEO DOOR ENTRY FUNCTION INCLUDED

Integrated management of home automation and video door entry function

FULLY CUSTOMISABLE

User profiles and background images are fully customisable. Favourite scenarios, shortcuts to websites, personal memo block: each user can create their own profile according to their needs.

BROWSING BY ROOM

Easy and intuitive navigation between rooms.

ENERGY MANAGEMENT

Energy consumption display with clear information

For more details on the energy management function see p. 24

THE PERFECT COMBINATION OF COMFORT, SAFETY AND ENERGY EFFICIENCY

UNIVERSAL DIMMER

Also see
p. 38

Suitable for all types of modern loads including dimmable CFLs and LEDs.

Its nightlight function makes the universal dimmer the ideal choice for bedrooms or children's rooms: Once switched ON at a preset level (e.g. 33%) the light will fade gradually for one hour until it turns completely OFF.

8 PUSH-BUTTON CONTROL

The BUS-based 8 push-button control allows to control 8 functions or scenarios tailored to the user's needs. Symbols can be customised - for clear and easy identification of the functions or scenarios.

DISPLAY THERMOSTAT

Temperature control set individually in each room or centrally (in combination with a central unit), for certain areas or the whole house. Possibility of fan coil control.

SKIRTING LIGHT WITH MOTION DETECTOR

Installed in passageways, these skirting lights with their built-in motion detector allow to create illuminated paths. By helping to find one's bearings in the dark without having to switch on the light, they contribute to preventing injury through falls. Placed at the foot of the bed, they enable safely moving around at night without waking up any other person sleeping in the same room.

MINIATURE EMERGENCY LIGHTING UNIT

Disabled as long as the power supply is normal, the miniature emergency lighting unit comes on in the event of a power failure. It can be taken out of its base and carried along as a torch. This way a charged emergency lamp is always at hand and no one has to grope in the dark.

NEAT INSTALLATION FOR A PERFECT HOME CINEMA EXPERIENCE

Large, modern flat screens offer much more than just first class HD image quality. Mounted on the wall, they become an aesthetically attractive solution even in small rooms – if a few points are considered when planning the home cinema system.

TV SOCKET

Ensures connection for radio, TV and satellite sources

HOME CINEMA CONNECTIVITY - NO MORE CABLE JUMBLE

All connections needed between the screen and other devices like a DVD player, PC or games console should be identified beforehand, as exposed cables would disrupt the visual effect. This way the necessary multimedia sockets (RJ 45, RCA, HD15, USB Charger, HDMI, loudspeaker sockets, etc.) can be positioned properly and cables can be installed in the wall. As more and more devices need to be connected to power - make sure to plan a sufficient number of sockets as well.

HDMI sockets allow to transmit high definition digital audio/video streams from a DVD/Blue-Ray player or computer to a compatible screen (LED, LCD etc.)

Only a perfect sound rendition makes your home cinema experience really complete. For a cinema-like surround sound, at least 5 loudspeakers need to be distributed around the room. Ideally, with no cables cluttering the space. This can be achieved easily through the use of loudspeaker sockets - if the connection is anticipated at the planning stage.

LOUDSPEAKER SOCKET

For a perfect sound rendition – and no risk of tripping over cables.

Game consoles can be connected to the screen via HDMI connectivity.

MORE MOBILITY

USB POWER SUPPLY - WHEREVER IT'S HANDY

For convenient charging of mobile devices - directly through USB connectivity. And even more convenient: the USB power supply with retractable cord for smartphones with a Micro-USB connector. You don't even need a separate charging cord any more.

USB power supply

USB power supply
with retractable cord

NEAR THE ENTRY

Charge your smart-phone when coming home without having to search for the charging cord. And you'll never leave without it again - it's waiting for you just beside the front door.

NEAR THE BED

You can have your mobile device handy in case you need it while charging it conveniently over night.

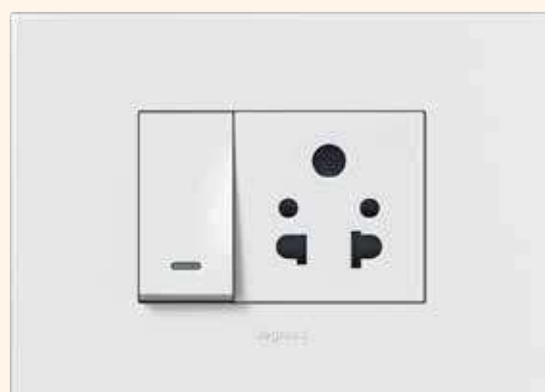

IN THE KITCHEN

Looking up a recipe on the Internet, listening to your favourite music or just giving your mother a call to ask her for advice on the right preparation? With your tablet and smartphone near the kitchen worktop, that's no problem at all, as you can charge them easily whenever needed.

POWER SUPPLY

Arteor provides all major standards and types of sockets: British, US, Italian, German, French, Korean, Indian, Chinese, Australian, South African... A truly international range.

ARTEOR™

HIGHLIGHTS FOR OFFICE BUILDINGS

EFFICIENT LIGHTING CONTROL FOR COMMERCIAL BUILDINGS

UNIVERSAL DIMMER

Suitable for dimmable CFL and LED lamps. Enables to take full advantage of the energy saving potential of modern types of loads.

0-10V DIMMER

ON/OFF and dimming control for 0-10V ballasts.

AUTOMATIC SWITCH

An energy efficient choice for passageways, washrooms or storage rooms, to ensure that lights are on only when they're needed, and only as long as they are needed.

Arteor controls are compatible with Legrand lighting management solutions. Check out our lighting management offer

SKIRTING LIGHT WITH MOTION DETECTOR

Contributes to cutting the energy bill but also provides enhanced security in staircases and corridors.

SOLUTIONS FOR A CONNECTED WORLD

POWER SOCKETS

Designed to adapt to the majority of international standards, Arteor provides the solution for your projects, wherever they are in the world.

USB POWER SUPPLY

For charging portable devices such as smartphones, tablet PCs, etc. Provides freedom from the restriction of a mobile charger and socket standards. Ideal for any environment receiving international visitors.

RJ 45 SOCKET WITH RETRACTABLE CORD

Provides greater flexibility, e.g. in meeting rooms for accessing data networks and the web. Cord winds up automatically using a push-button.

RJ 45 SOCKETS

For reliable access to data networks and the Internet

HD15 SOCKET

Used to transmit analogue video streams (VGA, XGA, UXGA depending on graphic card) between a source (computer) and a compatible receiver (video projector, TV, etc)

PRECONNECTED HDMI SOCKET

Equipped with female connectors and a 15 cm lead for quick connection to a cord already fitted with a male plug.

Facilitates the use of modern presentational media as it enables easy connection of HD-DVD drives or computers to a compatible plasma or LCD screen.

CONNECTIVITY WHEREVER YOU NEED IT

The full modularity of the Arteor™ range allows for seamless integration into various kinds of installation support devices: floor boxes, columns, mini columns, DLP trunking, multi-outlet desktop extensions.

DLP TRUNKING

Can be fitted with 2, 3, 4, 6 or 8 module wiring accessory supports to install any Arteor™ mechanism: 2P+E socket, RCBO, RJ 45 socket, AV sockets, etc.

Allows for easy adjustment to different room layouts

MULTI-OUTLET DESKTOP EXTENSIONS

Desktop extension modules can support different standards for power sockets or innovative functions. They provide high flexibility and ease of use for both mobile and desk-based users. Available fully equipped, customisable or custom-made.

COLUMNS AND MINI-COLUMNS

Supplied through false floor or false ceiling and fitted with Arteor™ RJ 45 and power sockets, columns and mini-columns allow power and data distribution as closely as possible to the workstation.

POP-UP BOXES

Pop-up boxes can be equipped with Arteor™ power and data sockets. Suitable for floor and desk installation, they provide rapid connection for all modern office devices.

HIGHLIGHTS FOR HOSPITALITY BUILDINGS

BUS SOLUTIONS FOR EFFICIENT HOTEL ROOM AUTOMATION

Do not disturb / Make up room

Door bell and badge reader

Wake-up and Sleep
lighting scenario

Relax scenario: just the
right lighting for watching
TV or reading

EXTERNAL READER AND INDICATOR

To be installed beside the door in
the hallway. Clear indication "Do not
disturb"/ "Make up room", door bell
and badge reading function

INTERNAL UNIT

Installed by the bedside, it allows the guest to
comfortably switch on the "Do not disturb"/ "Make
up room" sign in the hallway, choosing the desired
status.

Open and shut
blinds comfortably,
at the press of a
button

Control the bedside
lamp or ensure central
lighting control

8 PUSH-BUTTON CONTROL

The scenario control affords eight individually configurable combinations of various lamps, room temperature settings and blind positions. For the right atmosphere at just one touch.

RFID FREQUENCY RECOGNITION

To ensure that lights, heating, etc. are switched off when the hotel room is vacated, electricity can only be activated with the programmed hotel card. This makes an important contribution to energy saving.

DISPLAY THERMOSTAT

The room thermostat enhances comfort, as it enables everyone to set the temperature of their choice.

STAND-ALONE SOLUTIONS FOR IN-ROOM COMFORT AND ENTERTAINMENT

BEDSIDE UNIT

Provides enhanced comfort to the customer through convenient control of different lights, shutters or blinds from one single point, without having to get up.

AV SOCKETS

Arteor™ provides hotel guests with all the multimedia connections they will need: VGA, HDMI, USB sockets and power supplies. They enable guests to connect and use their high-tech equipment in their room.

MULTISTANDARD SWITCHED SOCKET OUTLET

Convenient for international travellers, as it removes the need of adaptors. And safe at the same time, as it offers the standard safety features provided by BS sockets: whatever the plug is, the socket can be switched OFF when inserting the plug, and only be switched ON again once the plug has been inserted.

The safety shutters protect against accidental contacts to live parts.

SHAVER SOCKET

The shaver socket incorporates a double wound isolating transformer for safe use in the bathroom.

It can be used with various 2-pin plugs such as European, British, American and Australian. Suitable for 120V and 230V.

HOTEL ROOM AUTOMATION

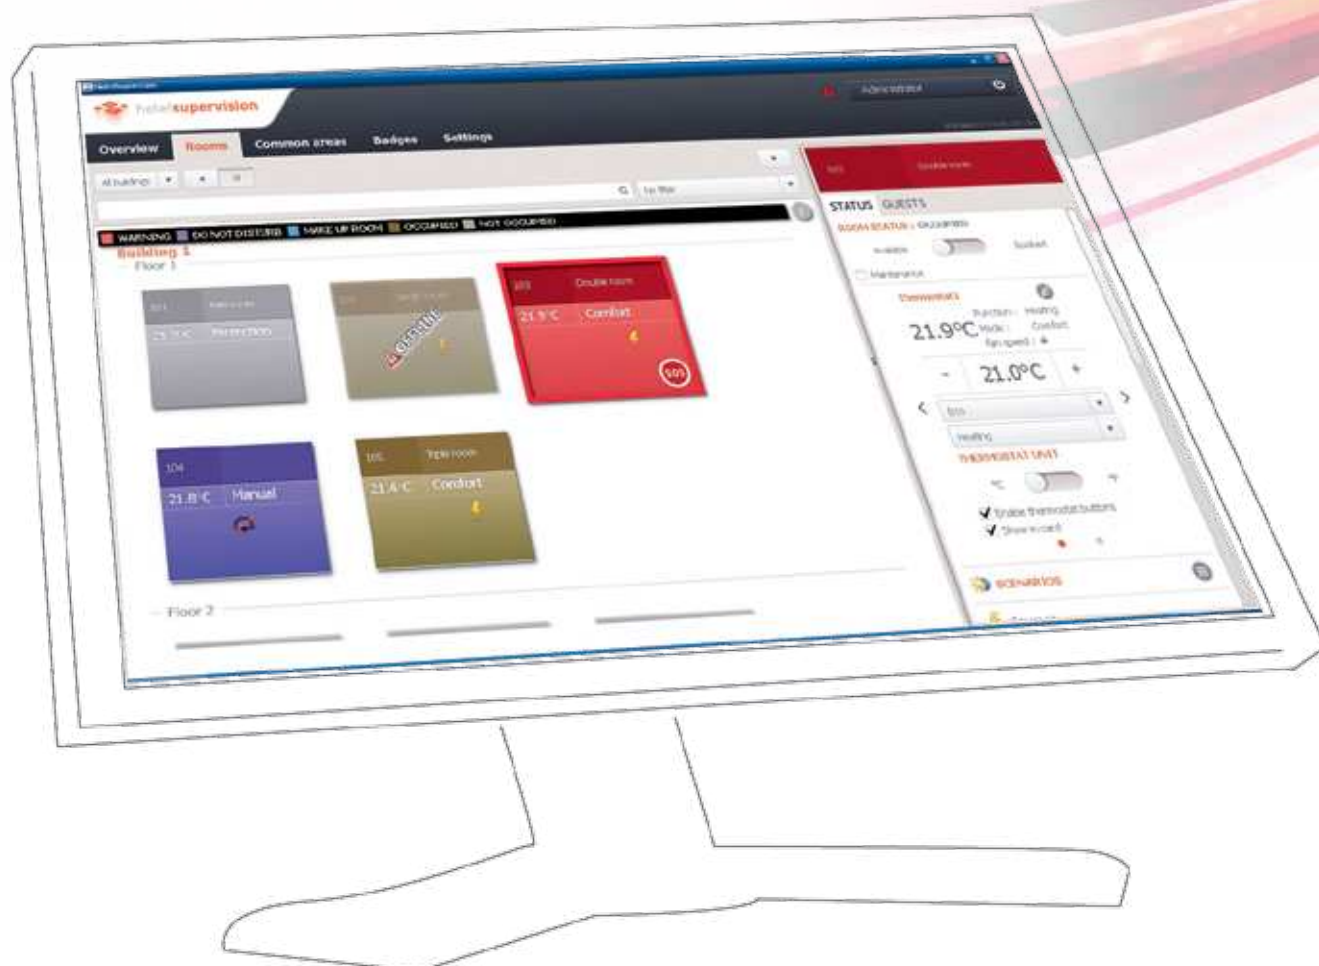

COMBINE INDIVIDUAL ROOM CONTR

AND CENTRALISED SUPERVISION

SUPERVISION SOFTWARE

The supervision software enables remote control and management for each individual room from one central point. In this way, temperature and lighting scenarios as well as the “Do-not-disturb / Make up room” signals can be controlled directly from reception, according to whether guests are in their room or not.

OL

RFID FREQUENCY RECOGNITION

Together with a badge programming device, the software can also programme badges to work with the specific room reader.

IP SCENARIO MODULE

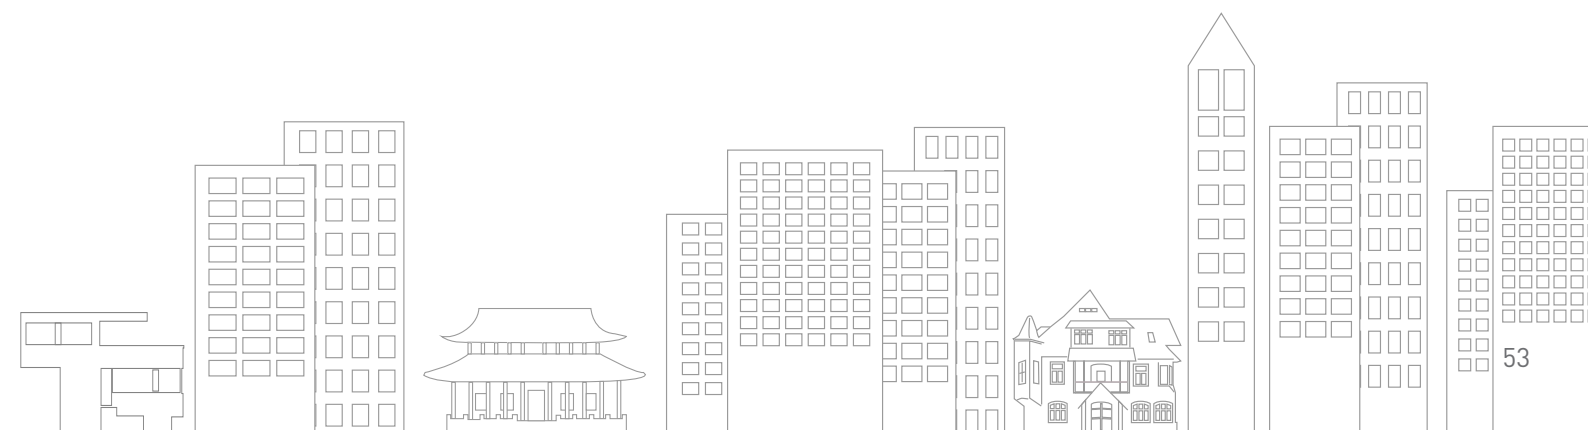

It manages up to 50 scenarios for the hotel rooms or different areas and works at the same time as a gateway for the supervision software.

Wi-Fi access points

5723 76

Cover plates selection chart **p. 108-111**

Pack	Cat.Nos		
	White	Magnesium	
1/10	5723 76	5728 76	Wi-Fi access point Come in addition to a new or existing LCS structured cabling, to meet the requirements for mobility in the building (meeting rooms for example) Identical connection to the LCS RJ 45 socket Remote management via a web interface Allow the configuration and the exploitation of the Wi-Fi access point by the network administrator. Security via WPA2 encryption (802.11i) and/or authentication (802.11x) Guest access to offer free access to the guests and keep independent and secure the main Wi-Fi network Supply via Power over Ethernet (standard 802.3 af) 4 modules 90 x 45 mm Standards 802.11a and 802.11b/g dual-band dual-radio Data rate: 54 Mbps max. on each frequency (802.11a and 802.11g) Equipped with an RJ 45 socket on the front panel
1/10	5723 77	5728 77	
1/10	5723 78	5728 78	

Installation principle

Arteor Wi-Fi access points

A 802.11 a and b/g solution

Radio communication standard	802.11 b/g	802.11 a
Power over Ethernet standard	802.3 af	
Frequency band	between 2.40 and 2.48 GHz	5 GHz
Number of available channels	13	8
Max. data rate	54 Mbps	54 Mbps

Advantages of a Legrand Wi-Fi access point

- Possibility of simultaneous operation on 2 frequencies, a and b/g Provides a max. data rate of up to 2 x 54 Mbps in simultaneous mode
- Very high security level: encryption (WPA2 - 802.11i) and authentication (802.1x)
- Possibility of roaming (moving from one access point to another without breaking the link)
- Quality of service (priority automatically given to voice, then video and finally data) in accordance with standard 802.11e
- Easy to configure and make secure with the quick configuration node

NEW: Guest access to offer a free access for the guest and keep independent and secure the main Wi-Fi network

Installation

In all supports that can take an Arteor mechanism (ducting, columns, flush-mounting boxes, floor boxes, etc)
Do not place access points behind an obstacle that would limit the radiation of the antenna
Access points are connected in the same way as RJ 45 sockets

Sizing

- Provide 1 access point for 1 localised requirement
- Provide 1 access point per 100 m² for global coverage and a maximum gross speed
- Provide 1 access point with an RJ 45 socket for an office used by visitors

Legrand services

To guide you in setting up your VDI sites:

- Help with sizing the installation
- On site assistance for integrating products and making important installations secure

USB socket

Cat.Nos 5722 75/5727 75/5732 74/5737 74

USB charger

Cat.Nos 5720 78/5725 78/5720 71/5725 71/5724 88/5733 98

Installation

By simple tap-off on 2P+E socket
Wiring 1.5 or 2.5 mm²
Class II product which does not require earthing
Releases a 2P+E socket recess

The Micro USB version with retractable cord (new 2012 standard for terminals) releases 750 mA retractable power supply cord

Environment:
Helps to reduce waste associated with the discarding of mobile chargers that have become unusable (50,000 tonnes/year) and thus the associated greenhouse gas emissions (13.5 million tonnes equivalent)
Reduces standby consumption by more than 50% in comparison with a mobile charger
Performance required by standard EN 62684: 0.5 W/Legrand performance: < 0.3 W

ARTEOR™ HOME AUTOMATION - RADIO/ZIGBEE®* TECHNOLOGY

The standard for radio (wireless) solutions, ideal for refurbishment, small new installations and increasing the number of control points, without damaging the walls.

INTERACTIVITY OF FUNCTIONS

ZigBee® radio technology is an international low consumption radio communication standard. Operating at a frequency of 2.4 GHz, it can be used, via transmitters (wireless) and receivers, to control lighting, roller blinds, as well as technical alarms. It can also control scenarios, and allows bidirectional communication between devices. It can be used in addition to the BUS system.

► LIGHTING CONTROL

RECEIVER DIMMER SWITCH
(See p. 114)
Indicates the light intensity via LEDs

- A** Indicates lighting control
- B** Indicates roller blinds control

► SCENARIO CONTROL

4 SCENARIOS CONTROL
(See p. 66)
For lighting, roller blinds...

► ROLLER BLIND CONTROL

INDIVIDUAL RECEIVER ROLLER BLINDS SWITCH
(See p. 39)
Controls any type of electric roller blind motor

WIRING DIAGRAM

Dimming control

or

Dimming control with touch plate

► TECHNICAL ALARM

TECHNICAL DETECTORS
(See p. 121)
Give a warning if there is a water, town gas or methane leak

Transmitter/receiver control units for false ceiling - 100-240 VA

Its receiver function is used to execute, on its circuits, on/off commands received from centralised control units, scenario switches, mobile control units and detectors (p. 66)

Universal switch - phase/neutral

1 output - 2500 W

Dimmer for all loads (excluding fluorescent and LEDs) - without neutral

1 output - 600 W

Dimmer for 1-10 V ballast - phase/neutral

1 output - 500 VA

Pack Cat.Nos Plexo Programme radio transmitter/receiver switch

1	0695 03	<p>2500 W Its transmitter function allows it to control another lighting Radio/Zigbee® receiver switch Its receiver function is used to execute commands received from centralised control units, scenario switches, mobile control units and detectors (p. 66) 3-wire installation in box depth 40 mm min.</p>
---	---------	---

Weatherproof radio individual blind switch for mounting in a head rail with slat orientation

Controls motors (4-wire) on 230 V electric blinds for lowering/raising/stopping the blind
Installed in the loft or in the blind head rail during modernisation of an existing blind without damage to the walls

Must be used together with a centralised switch Cat.No 0672 64.
Must remain accessible for any programming necessary
Maximum loads supported in 230 VA: 1 x 500 VA

Radio transmitter/receiver multifunction switches - 230 VA

Switches for controlling 1 or 2 circuits connected to its terminals according to 3 different operating modes: time-lag switch, switch, remote control switch
Its receiver function is used to execute, on its circuits, on/off commands received from individual control units, centralised control units, scenario switches, mobile control units and detectors (p. 66)
Phase/neutral power supply

1	5738 58	<p>Weatherproof multifunction switch 2500 W</p>
1	5738 60	<p>Weatherproof multifunction 2-gang switch 2 x 2500 W</p>

ZigBee®: Certified product Manufacturer Specific Profile

Bold catalogue numbers are products normally available with Legrand (India) stockists.

Cat.Nos that are not bold - delivery within 4 - 8 weeks from the date of order.

Bold packing quantity is our mandatory packing. Orders to be placed by Legrand (India) stockists in multiples of the same.

Switches and dimmers maximum loads at 230 V (for values at 110 V, please halve values)

Support frame and plate selection charts **p. 117-118**

Pack	Cat.Nos	Indoor motion detector
1	0882 91	 <p>Used to control a scenario by detecting movement, especially switching on lights automatically to create an illuminated pathway (from the bedroom to the WC for example) Infrared detection (range 11 m, time delay between 3 and 60 min, detection angle: 85°, light level threshold between 20 and 1000 lux) Set by mobile configurators Cat. Nos. 0882 30/35 Supplied with fixing base Detection at night only or night and day Is installed on the wall at the desired location 2 AA batteries</p>
1	0883 30	<p>Indoor temperature sensor</p> <p>IP 21 For indoor use only Setting: 2 temperature thresholds Temperature ranges: from - 10 °C to + 40 °C Can be used to initiate 2 scenarios when the temperature is higher than the high threshold or lower than the low threshold</p>

Pack	Cat.Nos	20 A switches - receivers
1	5735 50	<p>Can be activated by any other radio device To be equipped with round or square key cover plates and Magnesium circle for control To be equipped with 2-module plates and 2-module support frames (p. 117-118) To be installed in flush-mounting boxes min. depth 40 mm</p> 
1	0672 50	<p>BUS/SCS-Radio/ZigBee® Arteor gateways</p> <p>To be equipped with round or square cover plates and Magnesium circle for control, to be equipped with 2-module plates and 2-module support frames (p. 117-118) To be installed in flush-mounting boxes min. depth 40 mm Used to link a BUS/SCS installation and an additional Radio/ZigBee® installation Used to control up to 32 transmitters</p> 
1	0883 31	<p>Transmitter with auxiliary inputs</p> <p>Can be used to initiate ON/OFF on closing or opening of a volt-free contact For controlling a Radio/ ZigBee® installation using commercially-available detectors (eg: light sensitive switch, moisture sensor) Fits behind a traditional switch, without damage to the walls, to control a Radio/ZigBee® switch</p>

ZigBee®: Certified product Manufacturer Specific Profile

ARTEOR™

HOME AUTOMATION - BUS/SCS TECHNOLOGY

With 2 dedicated wires, for creating scenarios that incorporate all the functions for large living areas: lighting, automation, video door entry system, etc.

► VIDEO DOOR ENTRY SYSTEM

AUDIO AND VIDEO DOOR ENTRY SYSTEM
(See p. 139)
Controls opening, with the possibility of intercommunication with other units

► SCENARIO CONTROL

SCENARIO CONTROL
(See p. 66)
For activation of 4 scenarios

► TEMPERATURE CONTROL

CENTRAL UNIT FOR TEMPERATURE CONTROL
(See p. 130)
Can manage up to 99 zones

► DIN-RAIL ACTUATORS AND HOUSE MANAGEMENT

DIN RAIL ACTUATORS
(See p. 131)
To be associated to load and control mechanisms

TOUCH SCREEN
(See p. 137)
Activation of 4 scenarios, of temperature, of sound distribution functions

► SOUND DISTRIBUTION

AMPLIFIER
(See p. 135)

MULTIPLICATION OF FUNCTIONS WITHOUT ANY SPACE CONSTRAINTS.

Legrand BUS/SCS technology can manage various different functions at the same time via 2-wire extra low voltage cables. It enables a number of functions which can be integrated through scenarios and designed to adapt the user's environment as required.

► ROLLER BLINDS CONTROL

ROLLER BLIND CONTROL
(See p. 59)
Controls any type of electric roller blinds

► INTRUDER ALARM

INTRUDER ALARM
(See p. 133)
Can manage up to 72 detectors

Pack	Cat.Nos	Basic control mechanisms
		For controlling a controller (eg: lighting, shutters or lighting + shutters) depending on the selected configuration Used to manage groups of functions and centralise them (scenario switch type) To be installed in flush-mounting boxes
1	0675 52	Micropush control mechanisms To be equipped with key covers (p. 126), support frames and plates (p. 117-118) 2 modules For controlling 1 or 2 controllers
1	0675 54	3 modules For controlling up to 3 controllers
		Multi-functions control mechanisms For controlling 1 or 2 controllers (eg: ON/OFF, shutters, scenario control) sound system, door release control, dimming: gradual switching on or off depending on the selected configuration To be installed in flush-mounting boxes
1	0675 53	Micropush control mechanism To be equipped with key covers (p. 126), support frames and plates (p. 117-118) Can control up to 4 scenarios 2 modules
1	5739 04	Touch control mechanisms - 2 modules Supplied complete, equipped with white or black touch plates Can control up to 4 scenarios ○ White - for BS flush-mounting boxes
1	5739 05	● Black - for BS flush-mounting boxes
1	5739 06	○ White - for 2" x 4" flush-mounting boxes
1	5739 07	● Black - for 2" x 4" flush-mounting boxes
1	5739 12	Touch control mechanisms - 3 modules Supplied complete, equipped with white or black touch plates Can control up to 6 scenarios For installation in BS, Italian or US flush-mounting boxes ○ White
1	5739 13	● Black

Pack	Cat.Nos	Flush-mounting controller with built-in control
1	0675 56	 For controlling two lighting circuits or a blind motor Slat orientation control 2 outputs - 2 A 230 V power supply To be installed in flush-mounting boxes To be equipped with key covers (p. 126), support frames and plates (p. 117-118)
1	F401	Advanced rolling shutter management devices Relay interlocking or pulse based motor drive Position status return: closed, open, intermediate position. Drive following different orders: up, down, or opening % 2-relay controller for the driving of a motor Maximum motor power: 500 W, 230 Vac Logic relay interlocking 2 DIN modules
1	0675 57	Controller with integrated control for the driving of a motor To be fitted with STOP key cover, items 5745 45/46/47/48, and rolling shutter key cover, items 5745 15/16 and 5744 92/93, Arteor Program plates (p. 117-118) and Batibox support Maximum motor power: 500 W, 230 Vac Logic relay interlocking Stop, up, down function Possibility of blade angle adjustment Recall of a previously saved opening/closing position Recording of the opening/closing position on the control using self-learning procedure
1	0675 58	Specific advanced motor management control To be fitted with STOP key cover, items 5745 45/46/47/48, and rolling shutter key cover, items 5745 15/16 and 5744 92/93, Arteor Program plates (p. 117-118) and Batibox support Point-point, room, group, and general control of the motor controlled rolling shutters, to be used in conjunction with actuators items F401 or 0675 57 Stop, up, down function Possibility of blade angle adjustment Recall of a previously saved opening/closing position Recording of the opening/closing position on the control using self-learning procedure

Arteor™ lighting control and automation mechanisms BUS/SCS (continued)

Support frame and plate selection charts **p. 117-118**

Pack	Cat.Nos	Scenario controllers
1	5739 02	For controlling a number of controllers and managing 4 scenarios To be used in conjunction with scenario module Cat.No F420 Supplied complete with scenario identification label Equipped with round or square version cover plates To be equipped with support frames and plates (p. 117-118) 2 modules
1	5739 03	
1	5745 03	○ White ● Magnesium
1	5745 04	
1	0675 92	8 push-buttons control For lighting, automation, sound diffusion and scenario functions
1	3541	A5 sheets for the customisation of the symbols of item 0675 92
1	3542	
1	5737 16	Touch screens Used to control manually or by programming up to four of the following functions: control of 4 scenarios, display and centralised management of temperature (1 zone), sound system (display and selection of sound distribution sources, adjusting loudspeakers and setting the wake-up function), energy (display of consumption) and Load control management. Equipped with cover plates, to be equipped with support frames and plates (p. 117-118)
1	5737 17	

Pack	Cat.Nos	IR remote control
1	0882 32	For remote control of equipment wired on the BUS (eg: lighting, shutters, etc.) Radio/ZigBee® - IR remote control For use in conjunction with infrared receiver 5-scenario controller Supplied with batteries
1	5739 00	IR receivers Equipped with round version cover plates, to be equipped with support frames and plates (p. 117-118) Can take up to 4 control units Must be installed in the infrared remote control relay Cat.No 0882 32 (the receiver sends the command from the remote control to the product concerned)
1	5739 01

Bold catalogue numbers are products normally available with Legrand (India) stockists. **Cat.Nos that are not bold** - delivery within 4 - 8 weeks from the date of order.
Bold packing quantity is our mandatory packing. Orders to be placed by Legrand (India) stockists in multiples of the same.
Red catalogue numbers: New products

Arteor™ modular equipment for lighting control and automation BUS/SCS

Load selection charts **p. 128**
Technical characteristics **p. 141-145**

Pack	Cat.Nos	Multi-application DIN controllers
		NO contact For lighting (residential), shutters and motors 2 DIN modules 17.5 mm
1	F411/1N	1 output 16 A - old item 0038 41
1	F411/2	2 outputs 10 A - old item 0038 42
1	F411/4	4 output 6 A - common phase - old item 0038 44
		DIN controllers for dimming For use in conjunction with loads and control mechanisms (p. 124) for dimming control
		For incandescent, halogen and ferromagnetic loads Load: 60 - 1000 W / 230 VA - 50 Hz 4 DIN modules 17.5 mm - old item 0036 52
1	F414	
		For electronic transformers loads 1 output Load: 0.25 to 1.7 A / 230 VA - 50 Hz 4 DIN modules 17.5 mm - old item 0036 53
1	F415	
		For dimmer LEDs, compact fluorescent lamps CFL, energy saving halogen lamps and electronics transformers 1 output - 300 VA maximum 230 Va.c. - 150 VA maximum 127 Vd.c. 4 DIN modules 17.5 mm
1	F418	
		For 1-10 V ballasts Load: 500 VA maximum 2 DIN modules 17.5 mm - old item 0036 56
1	F413N	
1	0026 11	1 output - 1000 VA maximum 6 DIN modules 17.5 mm
		For DALI protocol Enables communication between the BUS/SCS installation and the lighting appliances controlled by DALI protocol 6 DIN modules 17.5 mm
1	0026 31	
		For incandescent, halogen 230 V, ELV halogen with electronic or ferromagnetic transformer 6 DIN modules 17.5 mm Automatic recognition of the load
1	0026 21	1 output - 1000 W maximum
1	0026 22	2 outputs - 400 W maximum per output 12 DIN modules 17.5 mm
1	0026 27	6 output - 300 W maximum per output
		DIN on/off lighting controllers For lighting (commercial sector)
1	0026 01	2 outputs 16 A 4 DIN modules 17.5 mm
1	0026 02	4 outputs 16 A 6 DIN modules 17.5 mm

Pack	Cat.Nos	BUS power supplies
		27 V_~ - 1.2 A Maximum consumption: 300 mA Maximum current supplied: 1.2 A 8 DIN modules 17.5 mm
1	E46ADCN	Input voltage: 230 VA output voltage 27 V _~ - old item 0035 60
1	E46ADCN/127	Input voltage: 127 VA output voltage 27 V _~ - old item 5 739 97
		27 V_~ - 0.6 A Maximum current supplied: 0.6 A 2 DIN modules 17.5 mm
1	E49	Input voltage: 230 VA output voltage 27 V _~ - old item 0035 67
		RJ adaptor For connecting Cat.Nos 026 02/21/22/11 to the BUS Male connector
10	0488 72	
		Contact interfaces Allow the connection between traditional wiring devices such as switches, time delay switches or external sensors 2 independent contacts 2 DIN modules 17.5 mm - old item 0035 53
1	F428	
1	3477	Basic modularity to be installed in flush-mounting box - old item 5739 96
		Additional DIN devices Memory module for actuators Restore the last state of an actuator in case of a power failure 2 DIN modules 17.5 mm - old item 0035 52
1	F425	
		Scenario module Allows creation of scenarios by linking different functions. Up to 16 scenarios 2 DIN modules 17.5 mm - old item 0035 51
1	F420	
		SCS-SCS gateway (extension) Allows the extension of the installation or the integration between different functions Suitable for larger installations 2 DIN modules 17.5 mm - old item 0035 62
1	F422

5	3501/GR	GR
5	3501/AMB	AMB
5	3501/AUX	AUX
5	3501/ON	ON
5	3501/OFF	OFF
5	3501/O/I	O/I
5	3501/PUL	PUL
5	3501/SLA	SLA
5	3501/CEN	CEN
5	3501/T	↑↓
5	3501/TM	↑↓M
1	3501K/1	Kit with: AUX, GEN, GR, AMB, ON, OFF, O/I, PUL, SLA, CEN, ↑↓, ↑↓M (10 pieces of each figure)
1	3501K	Kit with «0 to 9» jumpers (10 of each number)
1	3502	Plier
		Plier for plug-in in jumpers
1	3504	Virtual configuration software
		Used to configure mechanisms and controllers in the installation for applications such as lighting, shutters and temperature control
		For use in conjunction with TCP-IP web servers F454 (p. 137)
		Comprising:
		1 CD with software for PC

Arteor™ temperature control BUS/SCS

5739 23

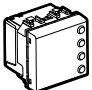

5739 24

5737 17

Support frame and plate selection charts **p. 117-118**
Technical characteristics **p. 141-145**

Pack	Cat.Nos	Central units for temperature control
1 1	5739 18 5739 19	Equipped with square version keypad cover plates To be equipped with special plates (p. 106) Supplied with flush-mounting box and 7.2 V battery Cat.No 3506 Can manage up to 99 zones ○ White ● Magnesium
1	0674 59	Display thermostat  Flush mounted thermostat with backlit display. It can be used to control the temperature of an individual zone, both if a temperature central unit is and is not present. It features a temperature probe and an input for the connection of a contact line (e.g. window contact). It can be used for the management of different types of systems, and the adjustment of the fan speed when fan coils are used. Possibility of automatic operation (summer/winter), with compatible systems. Connection to SCS BUS – 2 modules.

Pack	Cat.Nos	Probes
1 1	5739 20 5739 21	To control the room temperature of heating and cooling system Equipped with square version cover plates To be equipped with plates (p. 108-111) To be installed in flush-mounting boxes 2 modules Standard Temperature setting range: from 3 °C to 40 °C  ○ White ● Magnesium
1 1	5739 22 5739 23	With knob Temperature setting range: from 3 °C to 40 °C with knob for adjustment of +/- 3 °C relative to the set temperature and for the modality selection  ○ White ● Magnesium
1 1	5739 24 5739 25	With manual/automatic speed selection for fan coil Temperature setting range: from 3 °C to 40 °C with manual/automatic speed selection for fan-coil  ○ White ● Magnesium
1 1	5737 16 5737 17	Touch screens Used to control manually or by programming up to four of the following functions: control of 4 scenarios, display and centralised management of temperature (1 zone), sound system (display and selection of sound distribution sources, adjusting loudspeakers and setting the wake-up function), energy (display of consumption) and Load control management. Equipped with cover plates, to be equipped with support frames and plates (p. 108-111) ○ White - old item 5739 16 ● Magnesium - old item 5739 17

F430/4

F482

Technical characteristics p. 141-145

Pack Cat.Nos DIN rail actuators 100/240 VA - 50/60 Hz

1	F430/2	Actuator with 2 independent relays For single and double loads: 6 A resistive, 3 A motorised valves and pumps 2 DIN modules 17.5 mm Old item 0035 79
1	F430/4	Actuator with 4 independent relays For single, double or mixed loads: 6 A resistive, 3 A motorised valves, pumps and fan-coils 2 DIN modules 17.5 mm Old item 0035 80
1	F430R8	DIN actuators for the control of ON/OFF valves, motorised valves, pumps and fan coils with 0-10V proportional valves Actuator with 8 independent relays for the control of on-off valves, motorised valves (open-close and three-point valves), pumps and fan coils with 2 and 4 tubes – 4A resistive, 1A motorised valves, pumps and fan coils – connection to SCS BUS – 4 DIN modules
1	F430R3V10	Actuator with 3 independent relays and 2 x 0-10 Volt outputs for the control of fan coils with 2 and 4 tubes with 0-10 Volt proportional valves – 4A resistive, 1A fan coils – connection to SCS BUS – 4 DIN modules
1	F430V10	Actuator with 2 x 0-10 Volt outputs for the control of 0-10 proportional valves – connection to SCS BUS – 2 DIN modules

Pack Cat.Nos BUS power supplies

		27 V_~ - 1.2 A Maximum consumption: 300 mA Maximum current supplied: 1.2 A 8 DIN modules 17.5 mm Input voltage: 230 VA output voltage 27 V _~ - old item 0035 60
1	E46ADCN	
1	E46ADCN/127	Input voltage: 127 VA output voltage 27 V _~ - old item 5739 97
		27 V_~ - 0.6 A Maximum current supplied: 0.6 A 2 DIN modules 17.5 mm Input voltage: 230 VA output voltage 27 V _~ - old item 0035 67
1	E49	
		Battery for temperature control central unit 7.2 V battery for central unit - old item 0675 18
1	3506	
		SCS cables Conform to IEC 45-5 and IEC 20-20 Grey Length 100 m - old item 0492 31 Length 500 m - old item 0492 32 Length 1000 m. Supplied on wooden reels
1	L4669	
1	L4669/500	
1	L4669KM1	
		IR transmitter for splitter For controlling splitters in different modes (auto-hot- cold) - old item 0883 01 Management of On/Off speeds (auto-low-medium or high) Temperature range between 16 °C and 30 °C Air conditioning remote control can "learn" the IR signal. Can be installed behind the air conditioning unit. Supplied complete with 2 m cable

Pack	Cat.Nos	Consumption indicators	Pack	Cat.Nos	Load and load shedding management
1	3522	Pulse counter interface  Old item 0035 54 Used to store data from a pulse counter water, colorimetry, heat or gas) In countries where there is ATEX Directive it's mandatory to use a zener barrier/Galvanic insulation barrier between the pulse counter interface and the gas meter The barrier must answer to the ATEX directive and must be installed outside ATEX area Install one pulse counter interface per meter to measure the consumption individually Consumption data stored hour by hour, and kept for several years (12 years) Display can be in the form of histograms or statistical data Use a touch screen Cat.Nos 5739 58, 0672 67/8 to display the consumption of the various meters	1	F521	Central control unit  Old item 0035 57 Used to define an energy threshold and manage load shedding priorities set on controllers to avoid unwanted breaks as a result of exceeding the energy contract Manages up to 63 controllers The max. authorised power threshold can be defined The settings can be activated/deactivated from the touch screen Instantaneous and cumulative display of circuit consumption on the touch screen Integrated memory module For installation in the consumer unit 1 DIN module 17.5 mm
1	F520	Consumption indicator for 3 circuits  Old item 0035 55 For single phase installations Supplied with a toroid and its link Each toroid can monitor one circuit The consumption indicator can take up to 3 toroids, for monitoring 3 separate circuits Several consumption indicators can be installed to monitor more than 3 circuits on the installation. Instantaneous and cumulative display of the consumption for each circuit and display of consumption on touch screens Cat.Nos 5739 58, 0672 67/8 Display can be in the form of histograms or statistical data Consumption data can be stored for 1 year, hour by hour, 2 years day by day or 12 years month by month	1	5739 85	Control with load monitoring Equipped with square version cover plates To be equipped with support frames and plates (p. 00 to 00) Used to display the status of the load controlled by the central load control unit (Cat.No F521) and force operation of the load independently Used to force the load during normal operation and reactivate the load previously deactivated by the central control unit
1	3523	Additional toroid  Old item 0035 56 Operates with consumption indicator Cat.No F520 Also operates with controller Cat.No F522 for load diagnostics 90 A max. Cable cross-section 25 mm ² max.	1	5739 91	 <input type="radio"/> White <input checked="" type="radio"/> Magnesium
1	F524	IP data concentrator  Old item 0035 66 Used to display the data measured by the system via several web pages Can handle different billing rates Integrated memory for up to 10 pulse counter circuits Centralises the data from circuits/pulse counter Automatic backup onto SD card	1	F523	16 A controller  Old item 0035 59 Used to define a priority level for a circuit in the context of a load shedding function For installation in the consumer unit 1 DIN module 17.5 mm Can be used as an electronic control box controller and/or an energy management controller
10	3508BUS	Connectors Spare parts for consumption indicator Cat.No F520 and controllers Cat.Nos F521, F522, F523 BUS connector, depth 3.81 mm - old item 0492 44	1	F522	16 A controller with consumption measurement  Old item 0035 58 Used to define a priority level for a circuit in the context of a load shedding function For installation in the consumer unit 1 DIN module 17.5 mm Can be used as an electronic control box controller and/or an energy management controller Measures the consumption of the load being controlled and displays (via touch screen Cat.Nos 5739 58, 0672 67/8) instantaneous and cumulative consumption with separate reset - Diagnostics of the load being controlled with use of toroid Cat.No 3523
10	3508U2	2-pole connector - old item 0492 45			
10	3508U3	3-pole connector - old item 0492 46

1 1	5739 34 5739 35	Equipped with square version keypad cover plates To be equipped with special plates (p. 117-118) Supplied with flush-mounting box Central unit with PSTN integrated telephone dialing device Allows manual activation/deactivation up of the system Can manage up to 72 detectors ○ White ● Magnesium

Pack	Cat.Nos	Detectors
1 1	5739 36 5739 37	Equipped with square version cover plates To be equipped with plates (p. 117-118) To be installed in flush-mounting boxes 2 modules Fixed IR detectors Volumetric presence detector with passive infrared rays Alarm signal LED with memory 8 meters range, 14 bands divided over 3 levels Possible activation of auxiliary prealarm channel Angular opening 105° ○ White ● Magnesium

Pack	Cat.Nos	Adjustable IR detectors
1 1	5739 38 5739 39	Volumetric presence detector with passive infrared rays Alarm signal LED with memory 8 meters range, 14 bands divided over 3 levels Possible activation of auxiliary prealarm channel Angular opening can be divided from 105° to 0° Swivel lens on 2 axes ○ White ● Magnesium

Pack	Cat.Nos	Double technology detectors (IR and MW)
1 1	5739 40 5739 41	Volumetric presence detector made up of two sensors: one infrared to detect hot bodies (IR) and one with microwaves to detect movements (MW) The alarm is only triggered when both detection technologies are activated ○ White ● Magnesium

Pack	Cat.Nos	Relay actuator modules
1 1	F481 3479	With multiple configuration with output via relay-contacts NO/NC, 24 V 0.4 A cos φ 0.4 To be used to repeat the alarm, activate an external device, repeat the system state and signal when battery is flat 2 DIN modules 17.5 mm - old item 0035 91 Can be installed in a flush-mounting box depth 50 mm behind a wiring accessory or a blanking plate - old item 0883 91

Pack	Cat.Nos	Keypads
1 1	5739 44 5739 45	Equipped with square version cover plates Alarm keypads Activation/deactivation via numeric code 2 modules To be equipped with plates (p. 117-118) ○ White ● Magnesium
1 1	5739 46 5739 47	Display keypads Activation/deactivation keypad via numeric code Allow the visualization of information and manage other functions such as independent management of zones To be equipped with special plates (p. 117-118) Supplied with flush-mounting box and battery 7.2 V Cat.No 0675 18 ○ White ● Magnesium

Pack	Cat.Nos	Transponder readers
1 1	5739 48 5739 49	Equipped with square version cover plates To be equipped with plates (p. 117-118) To be installed in flush-mounting boxes 2 modules Transponder reader which activate/deactivate the system with the transponder (badge) Able to store up to 30 transponders ○ White ● Magnesium

Pack	Cat.Nos	Transponders
3 5	3530S 3540	Key card transponder to activate/deactivate the system - old item 0035 75 Proximity card, 125 kHz technology, used to activate/deactivate the alarm. Supplied complete with label - old item 0675 17

Arteor™ intruder alarm BUS/SCS (continued)

5739 84

3480

0431 00

Technical characteristics p. 141-145

Pack	Cat.Nos	Sounders
1	5739 84	Indoor siren Can be installed in flush-mounting box Cat.Nos 0893 79 and 0892 79 To be equipped with 6 V battery Cat.No 3507/6 Sound intensity 90 dB(A) at 3 meters Protected against pulling off and tamperproof
1	0844 24	Outdoor siren Self-powered, self-protected against opening Emits a loud noise: 100 dB at 1 m Flashing light: 30 flashes a minute Use battery Cat.No 0433 41 (fitted inside the siren)
Accessories		
1	3507/06	Batteries 6 V - 0.55 Ah for indoor siren - old item 0675 16
1	3506	7.2 V battery for central unit - old item 0675 18
1	0407 49	Lead battery 12 V - 7 Ah
1	E47ADCN	Power supply Old item 0634 36 For installation in the consumer unit, self-protected against opening of the cabinet Output current: 1 A Output voltage: 24.5 V=
1		8 DIN modules 17.5 mm
1	L4669S	SCS cable for intruder alarm Supplied on a reel - Red Length 100 m - old item 6831 59
10	L4630	Tamper-proof device Rod for self-monitoring against pulling off - old item 0035 72
2	0893 79	Flush-mounting boxes For dry partitions - 2 x 3 modules
2	0892 79	For concrete walls - 2 x 3 modules
Opening detector interfaces		
1	3480	Allow other brands sensors management through N/C contacts Opening detector interfaces Can be installed in a flush-mounting box Depth 50 mm behind a wiring accessory or a blanking plate - old item 0675 13
1	F482	2 DIN modules 17.5 mm - old item 0035 73
1	3480V12	12 V opening detectors interfaces Can be installed in a flush-mounting box Depth 50 mm behind a wiring accessory or a blanking plate - old item 0883 02
1	F482V12	2 DIN modules 17.5 mm - old item 0035 71

Pack	Cat.Nos	Peripheral opening detectors
10	0431 00	For use in conjunction with interface Cat.No 3480 or F482 Magnetic opening detectors Surface-mounting magnetic detector 1 spring blade switch to be fixed on the door frame 1 moving magnet to be fixed on the door leaf For use with mini-trunking 20 x 12.5 mm Cat.No 0300 08
10	0431 01	Flush-mounting magnetic detector For surveillance of non-magnetic doors Dimens.: Ø8 mm - length: 30 mm
1	0431 08	Magnetic detector for garage door 1 foot to be fixed on the floor 1 magnet to be fixed on the door Supplied with 1 connection cable with steel casing
1	0431 10	Glass break detector Detection over a radius of 1.5 m Ultrasound detection created by the glass breaking Glued on the door (adhesive supplied)
1	0431 12	Tread mat Placed under object to be protected or under carpet and mat placed on the access path
1	3482	Detection device for use in conjunction with interface Cat.No 3480 Flood sensor In conjunction with a switch for local acknowledgement - old item 0675 14

Arteor™ lighting control and automation BUS/SCS

System principle

The Lighting Control system allows the management of different functions in a simultaneous and integrated way. All the components of the Lighting Control system are interconnected via an electronic circuit that can be programmed: the BUS. The information is exchanged through the 2 wire BUS cable at low voltage (27 V_~).

There are two types of devices in the system:

- the controls units, which are connected only to the BUS cable and
- the actuators, connected both, to the BUS cable and to the 230VA power line for managing the connected load

When the Lighting Control system devices are configured properly, it is possible to manage the load as follows:

- control for a single load
- control for one or more load groups;
- simultaneous management of all loads

It is also possible to carry out special functions, which can hardly be achieved with conventional electrical systems

These functions are called scenarios

One scenario is a set of simultaneous control of multiple groups of loads, used in order to modify the environment according to the user's needs

An example of a scenario can be represented by the simultaneous activation of lights, which can be set by the user after getting inside the building by using one single control device or by using the Touch Screen menu

Installation principle

Consumer unit

Arteor™ temperature control BUS/SCS

Installation principle

Consumer unit

Control units

Arteor™ intruder alarm BUS/SCS

System principle

The burglar alarm system permit to protect the home from the intrusion through the protection of ambiances and perimeters

The system is composed by a flush-mounted central unit with integrated dialler, IR detectors and perimeter sensors

All the devices are connected with a low voltage (27 V) twisted pair not polarized

Through the dialler it's possible to be informed in case of alarms and also control the system with the telephone (arm/disarm) and check in each moment the status

On the central unit it's possible to arm/disarm and change the active areas through code number or badge transponder up to 50 different users

ID and limitation in term of accessible areas and time slot can be assigned to each user

200 events are stored in the central unit to know exactly what happened on the system

The system can manage also technical alarm (example: gas, flooding) with the possibility to be informed locally through indoor sounder and with automatic closure of valves

HOME NETWORKS: MUSIC, VIDEO, DATA EVERYWHERE IN THE HOUSE

With Legrand home networks users can enjoy distributed audio and video around the house as well as access to computer and telephone networks wherever needed.

► KEYPAD VOLUME CONTROL

(See p. 149)
SOUND
DISTRIBUTION FROM
A CENTRAL SOURCE
TO LOUDSPEAKERS
THROUGHOUT THE HOUSE

► TV SOCKETS

(See p. 72)
Distribution of TV,
VRC, DVD and HD signals
from a central point to
every TV set in the house

► DATA SOCKETS

(See p. 72)
Access high-speed
internet and computer
networks throughout
the house. Share printers
scanners and any other
connected peripherals

► TELEPHONE SOCKETS

(See p. 73)
For multiple
telephone and fax-lines
into the house. With a
simple "plug and play"
connection, add new
phone lines as and when
required

► CABINETS TO BE EQUIPPED

(See p. 148)
Enclosures to be equipped
with audio, video, data
or telephone modules

With this flexibility, rooms blend seamlessly into one, yet each with the capacity for independent control, allowing users to see, hear and interact with whatever they want, wherever they want. Users enjoy their favourite CDs, MP3, radio station or even the audio signal from TV, at anywhere in the house. Legrand home networks will distribute sound from a central source to speakers throughout the home.

Pack	Cat.Nos	Enclosures
1	6338 01	Enclosures to be equipped with audio, video, data or telephone modules Capacity: 3 single size modules or 1 double size and 1 single size module Dimensions: 295 x 115 x 100 mm
1	6338 02	Capacity: 10 modules (single or double size modules can be integrated) Dimensions: 500 x 355 x 95 mm Enclosure 20" with screw on cover
Modules		
Advanced audio modules		
1	6338 21	To be installed inside enclosures Single source - 4 zone audio distribution module Size: single module
1	6338 53	4 sources, 8-zone audio distribution module High quality stereo music in 8 rooms Passes infrared remote control signals 24 V - 60 W Size: double module
Advanced audio modules - surface-mounting		
1	6338 22	RCA - single source input IR engine Input gain control For surface-mounting
1	6338 48	RCA - triple source input IR engine Input gain control For surface-mounting
Video modules		
1	6338 27	To be installed inside enclosures 1 x 4 bi-directional passive splitter/combiner Size: single module
1	6338 28	1 x 8 bi-directional passive video splitter/combiner Size: single module
1	6338 29	2 x 2 enhanced bi-directional video amplification Size: single module

Pack	Cat.Nos	Modules (continued)
Video modules (continued)		
1	6338 30	1 x 4 LNB satellite diplexer Size: single module
1	6339 93	SMATV distribution over RJ 45 (5 - 2400 MHz) Size: 2 single modules Equipped with power supply and line amplifier
1	0516 93	RJ 45 - IEC patch cord for TV network Length: 2 m
Data modules		
1	6338 25	To be installed inside enclosures 4 port router/switch (10/100 Mbps) De-select routing function mechanical switch 12 - 15 V 300 mA 3.5 - 4.5 W Size: double module
1	6338 26	10/100 Base-T auto-sensing switch 5 port - Auto-configuring Provides connectivity for a local area network 12 - 15 V 300 mA 3.5 - 4.5 W Size: single module Patch cord (RJ 45 - RJ 45)
1	6338 33	
Telephone module		
1	6338 23	To be installed inside enclosures 4 x 12 telephone module High performance RJ 45 telecom distribution Provides flexibility and convenience Size: single module

Pack	Cat.Nos	Power supplies	
1	6338 32	Multi voltage power distribution module Distributes: - 15 V _{DC} to up to 4 locations - 12 V _{DC} to up to 2 locations - 5 V _{DC} to up to 1 location Supplied with 24" power cord jumpers	
1	6338 40	15 V _{DC} power supply Includes a BS cord alimentation	
1	6338 41	24 V _{DC} power supply Includes a BS cord alimentation For audio modules Cat.Nos 6338 21/53	
Pack	Cat.Nos	Loudspeakers	
1	6338 43	High efficiency speakers with low distortion 6.5" inch in-ceiling round speaker (pair)	
1	6338 44	Dual voice coil stereo speaker 6.5" inch in-ceiling round speaker	
1	6338 45	Outdoor speakers pair - 90 dB Black Also suitable for moisture rich environments such as bathrooms or saunas	
Pack	Cat.Nos	Controls	
1	6338 46	Dual IR mouse emitter Used to control audio sources via audio distribution system To be connected on single or triple source input Cat.Nos 6338 22/48 To be used with universal IR receiver Cat.No 6338 47	
1	6338 47	Universal IR receiver for remote control Cat.No 6338 50 To be used with dual IR mouse emitter Cat.No 6338 46	
1	6338 50	Universal learning remote control Control all distributed audio keypads at the same time from anywhere in the house	

Pack	Cat.Nos	Keypad volume control distributed audio	
1	White 5722 93 Magnesium 5727 93	Mechanisms equipped with White or Magnesium square cover plates To be equipped with cover plaes (p. 108-111) 3 modules 22.5 x 45 mm Built-in IR receiver	
1	White 5722 94 Magnesium 5727 94	Allows user to plug in devices like portable audio players and computer audio outputs Mechanisms equipped with White or Magnesium square cover plates To be equipped with cover plates (p. 108-111) 3 modules 22.5 x 45 mm	
Pack	Cat.Nos	Accessories	
1	6338 73	Bracket 3-module mounting bracket Allows mounting of 3 single size modules Horizontal or vertical mounting	
1	6339 91	RJ 45 patch panels 4-way - Cat.5e RJ 45 bloc unit/UTP	
1	6339 92	4-way - Cat.6 RJ 45 bloc unit/UTP	
Pack	Cat.Nos	Installation tools	
1	6338 99	EZ crimp tool	
10	6338 51	EZ RJ 45 connectors	

TV and data sockets (p. 72)

Installation principle for distributed audio system: 4 source input - 8 zones

You can listen to any one of four audio sources in up to 8 different locations at the same time

Technical characteristics

- High-quality stereo music in 8 rooms
- Select from four unique music sources in every room
- Amplified keypad volume controller
- Local source inputs allows different music in three rooms
- Infrared remote control for easy sound management
- Expandable up to 32 locations

Composition of the installation

- Keypad volume controller in each room
- Local source input in desired room (local listening)
- Loudspeakers in each room
- 4 sources 8-zone distribution module in enclosure
- Single and/or triple source input devices Cat.Nos 6338 22 and/or 6338 48 in living room

RJ 45 plug wiring installation

Plug your cable with connector

- Strip your cable and untwist the pairs
- Cut/cross all wires
- Insert it into EZ RJ 45 connector Cat.No 6338 51
- Clip wires in RJ 45 connector Cat.No 6338 51
- Crimp connector with EZ crimp tool Cat.No 6338 99
